

Brilliant Sutanto

Seeking Remote Junior Developer / AI Application Internship

Email: brilliansutanto@gmail.com | WIB (UTC+7)

GitHub: github.com/Brilliancoder

LinkedIn: linkedin.com/in/brilliant-sutanto-0b3bb5411/

Profile

High-school graduate seeking remote entry-level development work compatible with college. Uses AI-assisted development tools and has an upstream-merged contribution to an open-source AI API gateway. Interested in AI applications, API integrations and practical web tools.

Education

UPH - College studies; program and dates not listed.

High school - Graduate.

Open-Source Contributions

Cartethyia - AI API Gateway | Contributor | August 2026

- Contributed response-decoding changes for Brotli, gzip and deflate, plus a fallback JSON parsing path in the provider request handler.
- Added two AgentRouter model catalog entries in the same contribution.
- Authored pull request #3, merged into risunCode/Cartethyia on August 2, 2026.

Contribution: github.com/risunCode/Cartethyia/pull/3

Projects

Personal Portfolio | HTML, CSS, JavaScript

- Created a static portfolio repository with project listings, client-side rendering and scroll-triggered interactions.
- Organized project content and professional links in a GitHub Pages-enabled repository.
